

BATTLE OF THE BAND

Summer 2m Challenge

OBJECTIVE: To get as many unique simplex qsos from a variety of operators between June 1st -August 31th, 2025. Log date, time, frequency, mode, call and name.

Each unique operator on each mode count as a qso. FM and SSB are 2 different modes for this event. Example, if you work the same operator 2m simplex on FM, SSB and CW, you made 3 loggable qsos.

Turn your log in to me at the end of the event before September 14th, 2025 and we will see how everyone scored. We could also see how each club does?? Who got the longest contact??
